

Fatemeh Pourkhavari

Physicist

Birth:

Kermanshah, 09/01/1992
Iran

Contact

Address:

Gosarjeva Ulica 9, 1000
Ljubljana, Slovenia

Phone:

+386 69706201

Email:

f.pourkhavari@gmail.com

LinkedIn Profile:

[linkedin.com/in/fatemeh-pourkhavari-b16665173](https://www.linkedin.com/in/fatemeh-pourkhavari-b16665173)

Languages

Kurdish

Mother tongue

Persian

Native proficiency

English

Full professional proficiency

German and Slovenian

Limited working proficiency

Work Experience

Quantum optics: Faculty of Mathematics and Physics, Ljubljana

9/2023 - present

- Work in quantum optics lab: narrowband entanglement source
- Experimental work on Cesium based quantum memories
- Conducting with optical setup and alignment, data analysis and lab teammates

Plasmonic: Faculty of Mathematics and Physics, Kermanshah

1/2019 - 12/2022

- Performed mathematical analysis to design optical devices
- Simulation and analyzing data sets and figures and presentations

Data engineer: Azmon Sanat Nazeran Tadbir (R&D, NDT)

1/2022 – 8/2023

- Supporting R&D activities, data processing and training
- Working with the clients

Early stage researcher: Faculty of Mathematics and Physics, University of Ljubljana / Razi

Student work: 9/2016 - 12/2018, Research assistant: 09/2023 – present

- Experimental work on quantum networking and narrowband entanglement source
- Theoretical work on Graphene multilayers, broadband IR absorption, nonlinear nanoparticles and plasmonic
- Numerical simulations
- MATLAB/Mathematica modeling, analytical derivations
- Data representation, writing scientific papers

Education

PhD in Physics: Faculty of Mathematics and Physics - Ljubljana, 09/2023 - present

MSc in Physics: Faculty of Mathematics and Physics – Kermanshah, 09/2016 - 12/2018

BSc in Physics: Faculty of Mathematics and Physics – Malayer, Iran, 2/2012 - 8/2015

Skill highlights

- Quantum optics and Networking
- Physics molecular atomics
- Quantum computing
- Quantum memories based on cesium quantum memory
- Narrowband entanglement source
- Python and MATLAB
- Mathematical and statistical data modelling
- Preparing research
- PCB Layout designing
- Circuit simulation
- Teamwork
- LaTeX, Kicad, Office software tools and solid work

Interests

- Physics
- Mountaineering
- Languages
- Books, travelling and networking
